

Maria Zuheros

Software Engineer · JavaScript · TypeScript · React

United Kingdom | mariazuherosgomez@gmail.com

linkedin.com/in/mariazuheros | github.com/mariazuheros

PROFILE

Developer moving into software engineering after three years working alongside Engineering and R&D teams. Builds web applications in JavaScript, TypeScript and React, contributes to open-source AI and developer tooling, and is reading for a BA in Computer Science.

TECHNICAL SKILLS

JavaScript, TypeScript, Python, React.js, HTML, CSS, Git, browser extension development (Chrome and Firefox), cross-browser compatibility, AI agent tooling, Web3 and DeFi fundamentals, Agile project management.

OPEN-SOURCE PROJECTS

- **peerd**: AI agent harness native to the browser, driving tabs and running sandboxed compute. JavaScript, 371 stars. github.com/NotASithLord/peerd
- **open-seo**: Open-source alternative to Semrush and Ahrefs. TypeScript, 8.4k stars. github.com/every-app/open-seo
- **openstatus**: Status page with uptime and API monitoring as code. TypeScript, 8.9k stars. github.com/openstatusHQ/openstatus

PROFESSIONAL EXPERIENCE

Project Administrator

ATL Europa | Madrid, Spain | Feb 2023 to Mar 2026

- Worked hands-on with the Engineering team's React.js codebase, turning operational requirements into front-end changes.
- Acted as liaison between Engineering, R&D and Administration, optimising workflows and keeping cross-functional projects moving.

Administrative Assistant, Engineering Department

Ilustre Colegio Oficial de Gestores Administrativos de Madrid | Madrid, Spain | Sep 2022 to Mar 2023

- Supported Engineering and R&D teams with project coordination and cross-functional communication, removing recurring process bottlenecks.

EDUCATION AND TRAINING

BA Computer Science | Thomas Edison State University | Apr 2026 to present

Relaciones Laborales y Empleo | Universidad Carlos III de Madrid | 2016 to 2020

SheFi Scholar, Season 17 | 2026 | four-week programme in crypto, Web3, DeFi and AI
